

数据库实验报告 第16周

姓名：陈安康 学号：22320021

1. 创建用户如下：

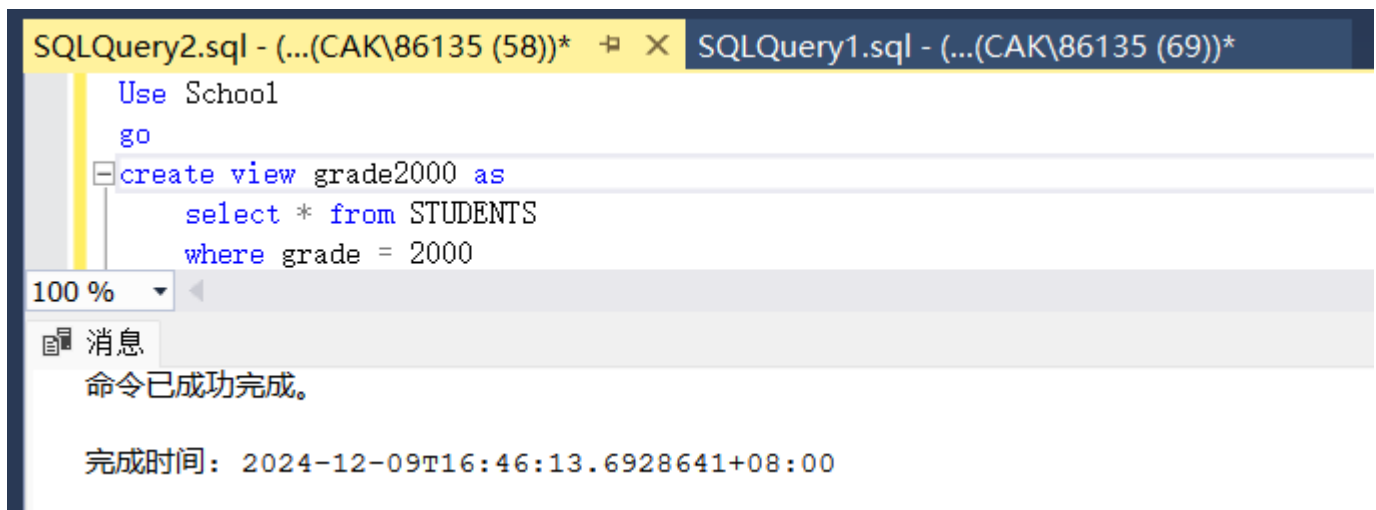

The screenshot shows a SQL query window titled "SQLQuery1.sql - (...\\CAK\\86135 (69))*". The query contains the following commands:

```
exec sp_addlogin '王二' , '123456' , 'School' , 'english'
go
Use School
go
exec sp_grantdbaccess '王二'
```

Below the query window, a message pane shows the status "命令已成功完成。" (Command successfully completed.) and the completion time "完成时间：2024-12-09T16:42:53.7841736+08:00".

创建视图如下：

The screenshot shows a SQL query window titled "SQLQuery2.sql - (...\\CAK\\86135 (58))*" with another window titled "SQLQuery1.sql - (...\\CAK\\86135 (69))*" open in the background. The query contains the following commands:

```
Use School
go
create view grade2000 as
select * from STUDENTS
where grade = 2000
```

Below the query window, a message pane shows the status "命令已成功完成。" (Command successfully completed.) and the completion time "完成时间：2024-12-09T16:46:13.6928641+08:00".

2. 授予王二在视图grade2000的select权限：

```
SQLQuery3.sql - (...CAK\86135 (74))* SQLQuery2.sql - (...CAK\86135 (58))* SQLQuery1.sql - (...CAK\86135 (69))*
Use School
go
grant select on grade2000
to 王二
```

100 %

消息
命令已成功完成。

完成时间: 2024-12-09T16:48:10.7690653+08:00

3. 授予王二在视图grade2000的修改sname列的权限

```
SQLQuery3.sql - (...CAK\86135 (74))* SQLQuery2.sql - (...CAK\86135 (58))* SQLQuery1.sql - (...CAK\86135 (69))*
Use School
go
grant update on dbo. [grade2000] ([sname])
to 王二
```

100 %

消息
命令已成功完成。

完成时间: 2024-12-09T16:54:31.1550845+08:00

对2 3 的验证:

登录用户王二，尝试对视图grade2000进行查询操作，成功查询:

Use School

select * from grade2000

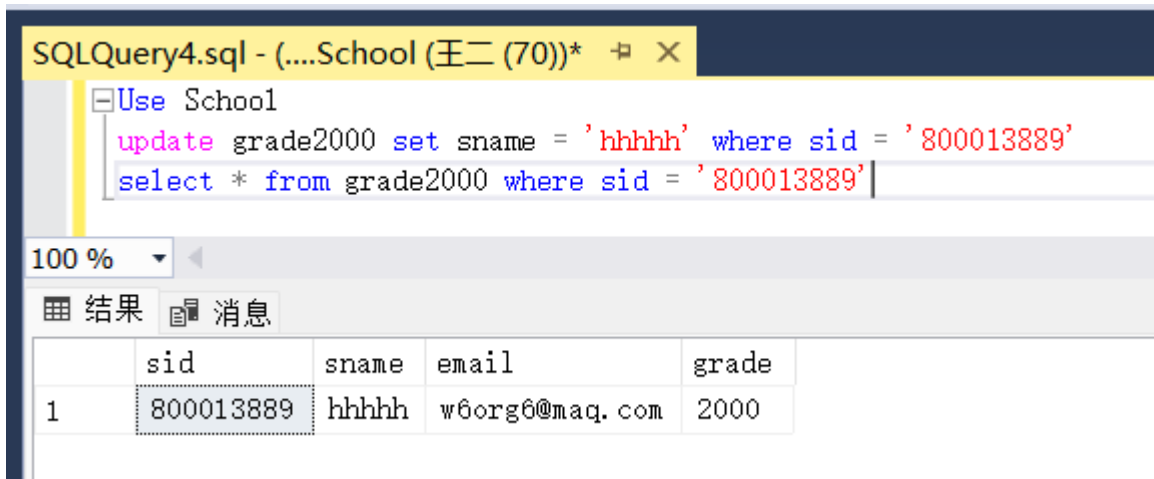

100 %

结果 消息

	sid	sname	email	grade
1	800013889	nahhluoe	w6org6@maq.com	2000
2	800029781	kkivmiw	vb8bt76@jkha.edu	2000

28	800448502	xvnybj	80_0@qbze.net	2000

✓ 查询已成功执行。

尝试以用户王二身份修改sid = 800013889的记录的sname，修改成功：

4. 通过“管理”文件夹中“SQL Server日志”，选择相应存档查看日志详细信息，使用筛选功能筛选消息中包含有“error”字样的信息，查找到的错误日志如下
